

ONE PINT OF YOUR BLOOD MAY SAVE UP TO 3 LIVES

New Jersey is facing a chronic blood shortage. In 2005, the State collected 74,000 units less than it used. Blood is in constant demand every day of the year. In fact, nine out of 10 of us will need blood some time in our lives. Without adequate blood supplies the State will be unable to meet our needs.

To do our part, our company has joined New Jersey Governor Jon S. Corzine's PowerPints Challenge.

DATE: _____ TIME: _____

PLACE: _____ CONTACT: _____

OUR GOAL: _____ PINTS = _____ LIVES SAVED

Help us win the PowerPints Challenge! Give blood. It's simple and safe.
Together, we can save lives...all in a day's work!
